NEWS IN BRIEF

see them on middle page

Bow Island

The Review has much pleasure in announcing to its readers, that this week it enters on the 12th. year of its publication.

The Review is always endeavoring to give a bright and interesting Paper to its readers.

And the Review sincerely hopes its readers will reciprocate by sending in their Subscriptions when due and that many more people will become Subscribers to the Review in this new year.

Last Thursday a surprise party of between seventy to eighty people visited the home of Mr. T.B. Hands south of town, in honor of his brother's visit.

Quite an enjoyable time was spent with Music, Dancing, Whist Tables and a splendid luncheon was served and dancing recommenced, many not going home till 8 and 4 in the morning and everybody declared they had a glorious time and lots of fun.

The Review thinks that most of the brothers had indeed the surprise of his life, when the big crowd suddenly came to see him.

But these nice recreations certainly help to brighten the lives of hundreds in these long winter months.

The neighbours are very pleased to hear that the little son of Mr. and Mrs. Menden is recovering rapidly.

A series of Card Parties will be given by the Ladies of the Altar Society of St. Michael's Church.

The first of the Series will be held in the G.W.V.A. Hall on Wednesday 11th, January starting 8:30 p.m.

All who are interested in Whist playing should make an effort to be present the first evening in order to be in the contest for the Valuable Prizes that will be awarded to Winners of the Series.

Admission 35c.

The ladies were very much in evidence at the Curling Rink on Wednesday afternoon and they are certainly staying out like real "Stonemasons" of course their sweeping is good.

PANTRY SALE

A Pantry Sale under the auspices of the Red Cross Society will be held at 3 p.m. on Saturday 7th, January in the G.W.V.A. Hall Bow Island.

Tea will be served.

The Whist Drive and Dance held under the joint auspices of the G.W.V.A. and Ladies Auxiliary Tuesday evening was a decided success.

There were fifteen tables of Whist in play, Mrs. Geo. Thomas and Mr. D.H. Wain were the honours while Mrs. L.M. Collier and Mr. P. B. Duffy won the consolation.

After a light supper, dancing started to music supplied by Douglas's Orchestra and continued until 11:30 p.m. when the dance broke up and the dancers started for home, feeling tired but with a good night's enjoyment behind them.

MASONIC JOINT INSTALLATION

Here on St. John's Night

A joint installation of the Grassy Lake and Bow Island A.F. & A.M. Lodge was held here in the Lodge Room on the evening of the 27th. December. A large attendance of members was present from Grassy Lake, Burdett, and Bow Island.

Several members of the order being present from outside points, among them were:

R.W. Bro. N. Stuart P.D.B.S.M. of Calgary

R.W. Bro. H. Doty P.D.B.S.M. of Medicine Hat

R.W. Bro. T. Murray O.S.W. of Medicine Hat

R.W. Bro. Murray assisted by R.W. Bro. Doty and R.W. Bro. Stuart performed the ceremony of installation.

The Officers of Grassy Lake Lodge are:

W. Bro. A.T. Litt W.M.

W. Bro. R. Scott I.P.M.

Bro. P. Crothers S.W.

Bro. W. Wain J.W.

Bro. H. McLaughlin Treasurer

Bro. M. McEwen Secretary

Bro. B. Berlin Chaplain

Bro. B. Switzer S.D.

Bro. McNabb J.D.

Bro. McCreath S.S.

Bro. W. Wain Tyler

W. Bro. H. Scott

The Officers of Bow Island Lodge are:

W. Bro. F.J. Henderson W.M.

W. Bro. Geo. Lomas I.P.M.

Bro. E. Anderson S.W.

Bro. C.T. McKinnon J.W.

Bro. R.H. Roberson Treasurer

W. Bro. J.W. Reid Secretary

Bro. J.M. Bratton Chaplain

Bro. A.D. Rolfe S.D.

Bro. A.C. Gage J.D.

Bro. W.K. Bateman D.O.C.

Bro. E. Anderson S.S.

Bro. Alex. Hamilton J.S.

Bro. R.V. Hurst Organist

W. Bro. Geo. Lomas Tyler

After the installation a banquet was served under the direction of Bro. T.R. Blaine and was appreciated by all present. The newly installed master acted as Toast Master.

The toast list consisted of the following:

"The King" responded by all singing "God Save the King".

"Grand Lodge" responded by R.W. Bro. Murray and R.W. Bro. Doty.

"The Craft" responded by R.W. Bro. Stuart.

"Our Visiting Brethren" responded to by W. Bro. Litt and Bro. H. McLaughlin.

"Our Lodge" responded to by I.P.M. Bro. Geo. Lomas and W. Bro. Roach.

Between the addresses Bro. S. Y. Hurst had a program consisting of musical selections songs and solos, among those contributing being Bro. Wain, Hurst, Reid, McLaughlin and McCreath.

A pleasing event in the evening being the presentation of the Past Master's Jewel to the Past Masters by R.W. Bro. Doty.

The time having passed so quickly a vote of thanks was tendered to our visiting brethren and after singing "Auld Lang Syne" a hasty run was made to catch the 1:10 train west.

Mrs. W.J. Little, took a trip to Taber last week, visiting some friends also have some dental work done.

There are posters up, stating there will be an annual meeting at the Good Cheer School House for the purpose of electing new trustees, on Jan. 7th.

France Remains Firm On Broad Plans For Submarine Building

Washington.—Efforts to limit the naval strength of the powers in submarines and auxiliary warships came to an abrupt end after they had drawn the French and British arms conference delegates into a plain spoken exchange over the possibilities of a future war between France and the British empire.

The French, acting under renewed instructions from their Government, told the conference naval committee, with an air of finality, that France must remain free to build a submarine fleet nearly three times as great as that now possessed and to construct, in addition, cruisers, destroyers and other auxiliary craft up to a tonnage of 330,000 tons.

To the proposal the Japanese, Italian and United States delegates replied with expressions of surprise and regret, while the British charged openly that such a building programme must be regarded as a threat to British shores. A speech by Arthur J. Balfour said that he had no doubt, if occasion arose, Great Britain would be equal to it, but it left the reserved committee responsible for the decision as to the construction of types of auxiliaries which might be useful against underwater warfare.

Agreeing that the argument would be useless, the committee turned its attention to collateral subjects including regulations for the construction of submarines, proposals for limitation of the size and armament of individual auxiliary vessels and details of the agreement already reached in principle regarding capital ships.

Improve Conditions

On the Farm

Nothing More Worthy of Men of Science and Education

Toronto.—Addressing a session of the American Association for the Advancement of Science, Sir Clifford Sifton emphasized particularly the necessity for improving conditions of life on the farm. He pointed out that the former minister of the interior considered this that he declared:

"Nothing is more worthy of the attention of the men of science and education than the amelioration of the conditions of the average farmer and his family. By inventing and appliances which will facilitate as far as possible the performance of the ordinary work of the farm, and which will improve the productivity of the soil."

"Without undue loss further details I would put as the very first requirement in the development of natural resources, recognition of the fact that the most important factor in agriculture and the improvement of conditions upon the farm to the end that the food for the nation will be stopped and farming operations rendered more easy and comfortable," continued Sir Clifford Sifton, and applied.

"I am quite certain that the movement from the farm to the city is largely due to the fact that the farmer's wife and family against the slushy labor which they have to do. This 'revolt' in my judgment is amply justified by the conditions. When it is said that the interests of the country require the promotion of a movement to get people to go back to the farm the answer is that what is wanted is not propaganda but something that will render life upon the farm more tolerable."

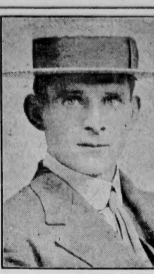

"It is not for nothing that the farmer has gone into politics. The basic industry of this country is crying out for help and the help that is required is not subsidies and not spoon-feeding, but action which will place the work of the farm upon a better and more comfortable, and more remunerative basis. The successful carrying on of the farms of Canada depends on the domestic work in the farmer's kitchen and barnyard."

May Oppose Harding's Shipping Plan
Washington.—President Harding's shipbuilding plan, though not fully worked out, will be ready to offer to Congress soon after the holidays. It will provide for a heavy expenditure in direct subsidies, intense opposition to it is already developing in Congress and it is generally regarded as doubtful whether it can be forced through even under administration pressure. Agricultural interests are lining up against it.

By making your purchases from your home merchant you are contributing direct to the prosperity of the community in which you live.

Cannibalism in Russia

Russians Eat Dead Bodies in Famine Stricken Areas

Riga.—The first official report of cannibalism in the famine stricken districts of Russia has been made to the all-Russian Soviet congress by Delegate Ovlenko, of Samara, according to a dispatch to the official Rosta News Agency, dated Moscow.

"At Kamenskoye the parish people are eating the bodies of their dead," Ovlenko told the congress.

"It is dangerous to bury the famine victims in the presence of the people and guards must be kept over them until they are in a state that makes eating impossible."

The speaker said that children are being taken to the Steppes and left there to die; that mothers, maddened by their experiences, cut the throats of their babies.

At the beginning of January, continued Ovlenko, the Soviets, at their outside aid, will be able to feed only half the starving children and only one twentieth of the adults. The rest of the people would have to die while waiting help.

Sugar Drops in New York

New York.—Raw sugar has plunged to the lowest level in 15 years and within a quarter of a cent of the lowest ever reported. The price for Cuban, cast and freight, was 1.34 a pound on Monday.

Refined sugar shared the break. It was quoted at 4.90 cents a pound for fine granulated. This was the first time in many years that it sold for less than five cents.

C.P.R. Conductor Has Envious Record

Winnipeg.—William Fogg, senior conductor of the Canadian Pacific Railway, with 43 years' experience as a railroader, 36 of them served as a conductor, has been superannuated. He bears the enviable record of never having lost a passenger.

Mr. Fogg was forced to retire before making his final trip as a result of an accident at Port William last week. He would have concluded his railroad career December 31.

For Toys and Games

New York.—More than \$100,000,000 was spent by the people of the United States for toys and games during 1921, the National City Bank has figured. The factory value of toys manufactured in this country has more than tripled, it was estimated, since the war cut off the supply from Germany.

Veteran Arrested in Ottawa
Ottawa.—Wm. H. Coulter, the veteran who walked all the way from Vancouver to Ottawa to lay some grievances as to his treatment while overseas before the Government, appeared in police court charged with disorderly conduct on the public streets. Magistrate Askwild permitted him to depart on suspended sentence.

Plan Help For Russia

Toronto.—The Italian Red Cross is to establish eighteen food and medical depots in the famine area of Southern Russia, under an agreement signed here by the president of the organization, and M. Vorovsky, Soviet representative. The government has contributed \$500,000 lire for the work.

Seize Liquor Shipment

Toronto.—Magistrate Denison's order for the confiscation of a carload of liquor which had been shipped from Montreal to Toronto as loot, was upheld in a judgment in the first appellate court.

Guard Public Morale

Chicago.—The movies jazz dancing and the cigarette, as they affect public morale, were denounced at a recent session of the International Public Conference.

Discuss Farm Problems

Prof. Bracken Also Pays Tribute to Early Investigators of the Country

Winnipeg.—Agricultural experts from many parts of the Dominion and the United States gathered here for the second annual convention of the Western Canadian Society of Agronomy.

Addressing the delegates, Prof. John Bracken, president of the Manitoba Agricultural College, paid a tribute to the men who had led the way in the matter of research and experiment. When the history of agriculture in Western Canada was written, he said, the early investigators in agronomy would be complimented on the standpoint of soil management and crop production. On the other hand, they might be criticized for not having conserved the soil in the way that might be expected, and it was the fact that they had not done so that constituted the problem before agronomists today. Methods had to be devised for solving that problem before it was too late.

Prof. Mauley Champin, of the University of Saskatchewan, read a lengthy paper on "Field Tests with Fertilizer Substitutes," in which he said the University of Saskatchewan in 1922 would undertake a project to determine the effect of various fallow treatments on the production of wheat outlined above as follows:

Oats, barley and wheat in double rows, 36 inches apart, and the triple rows, 30 inches apart; corn, potatoes and sunflowers in single rows, 42 inches apart, and such grass in double rows, 48 inches apart.

M. J. Thilne, Scott, Sask., gave a paper on "Practical Crop Rotations for the Prairie Farmer." Because of the one-crop system farmers were, as a class, financially embarrassed. The University of Saskatchewan would distribute labor more evenly throughout the summer and provide winter employment, he said.

Friendship Increasing

Powers On Increase

Crown Prince of Japan Is Pleased With Results of Conference

Tokio.—Crown Prince Hirohito, the present, personally reading the speech from the throne at the opening of the Diet, expressed gratification in noting the increasing friendship of the Japanese government with the different treaty powers, and that the Washington conference was approaching a successful conclusion.

The recent exhortation of the cooperation of the Japanese people in the promotion of national prosperity and of lasting peace, and the view of the added responsibility of the nation with respect to other nations. The session of the Diet was brief and formal.

Campaign to Check Reckless Driving

Hamilton, Ont.—That reckless drivers from operating cars through out the province, was the announcement of Hon. F. C. Bign, who addressed the Kiwanis Club here.

British Gathers to Tour Canada

Chicago.—John H. Taylor, five times open golf champion of Great Britain, and Alex. Hurd, who held the British title in 1907, will make a tour of Canada and the United States next summer. It was announced here. The veterans will compete in the United States open golf championship at the Shokke Club, Chicago.

His first joy ride

Upsets Theory That Summers in Canada Are Growing Drier

The Reparation Question

Hamburg.—The efforts of Germany during 1921 to fulfil her peace obligations have failed, and it is idle to think that any political or economic efforts will now succeed unless these conditions are modified, declared the annual report of the Hamburg chamber of commerce. "Those who still believe the London ultimatum can be carried out," says the report, "either are without judgment or do not desire fulfillment but the destruction of Germany, which in time would react on France, England and America."

France Wants Strong Fleet

Submarine Is Defended As Essential

Warship Purpose Only

Paris.—France's determination to limit the conference, were vigorously to the limitation efforts of the Washington conference, were vigorously voiced in the Senate during a discussion of the marine section of the government's budget.

Senator de Kerneux defended the submarine as an essential weapon of defense, but wished it to be confined to military uses instead of being applied to torpedoing commerce. "At the Washington conference," he said, "we were surprised to see the French delegation demand 230,000 tons of capital ships when France does not intend to carry war into foreign waters."

France desires no important sea, but if we found Admiral de Ron's proposal, there are, nevertheless, limitations which we cannot accept."

Use Unemployed As Night Guards

Plan Suggested for Philadelphia May Check Thefts

Philadelphia.—A plan to use 4,000 unemployed in the city as night watchmen, their wages to be paid by the contribution of 10 cents weekly by each family in the territory they are to guard, has been suggested to the Unemployment Committee by Mayor J. Hampton Moore. The plan, it was said, has the endorsement of police department officials.

The watchmen would not be in uniform and this fact, the Mayor said, would have the effect of deterring automobile thefts, burglaries and banditry of all sorts.

Situation in Egypt Improving

London.—Official reports received from Cairo stated that the situation in Lower Egypt was approaching normal, that all officials had returned to their offices and that only the schools remained closed.

There were small disturbances in Alexandria, but Cairo, the canal zone and the hinterland were quiet, indicating, according to official cables here, the nearest of the disturbances have ended.

Weariness of Winter, Suspect Surrenders

Winnipeg.—Weariness of the vigorous northern climate and expressing a deep longing to be back under southern skies, William H. Shelley, wanted for theft at Oakland, Cal., walked into the police station here and gave himself up. He was remanded for four weeks in order that the Oakland police may be communicated with.

Clyde Business Drops

London.—Clyde shipbuilding returns for this year show that 314 vessels were launched, with an aggregate tonnage of 514,000 tons. This is a big drop from last year's tonnage of 660,000 tons. The industry, which was launched in 1921 was the Windsor Castle, of 19,000 tons.

Famous British Actor Dead

Sir John Hare Was Widely Known to Canadian Playgoers

London.—The death of Sir John Hare, actor, singer and manager, is announced here. He was 77 years old.

Sir John Hare was widely known to Canadian playgoers as one of the eminent figures of the English stage. He appeared in the Dominion on several occasions, a number of plays, his extensive repertoire, notably "Cater" and "The Gay Lord Ques."

He was educated at Clarendon, York, in 1844. His parents wished him to enter the civil service and he was educated with that object in view. The stage appealed to him, however, and he studied for a theatrical career. His first appearance was in 1860, in the play "The First London appearance was made the following year as a member of the Prince of Wales Company."

British Government Has Gone The Limit On Irish Question

London.—A statement from Prime Minister Lloyd George was issued here to the effect that the Government had gone the utmost limit in the agreement and that it was impossible to re-open the discussions.

The delay in ratification in Ireland, the statement said, was holding up the working of the cabinet committee which would arrange the evacuation of the British forces in Ireland, settle the terms of the amnesty and transfer executive responsibility to the Irish provisional government.

Following is the text of Lloyd George's statement: "No British statesman could go further than we have gone; no British statesman could consider any possible."

Many weather idols of the mere

men were smashed when G. M. Lee, of the Manitoba Agricultural College, produced before the science convention a great array of charts which proved beyond all peradventure that there was no foundation for the home-digger complaint that the summers were growing drier and drier. Parched crops were merely seasonal phenomena. The figures showed that they were not more common than formerly and also that they did not rest in regular cycles of dry or wet seasons.

The broader aspects of this same question were presented by A. J. Connor, of the Dominion meteorological office, who dilated upon the extent to which rainfall in the west has depended upon the convergence of air currents from the Arctic, Pacific and Gulf regions which, after sweeping across the continent, usually converge in Manitoba or Saskatchewan.

When the association convened numerous interesting and lively technical papers were read at the various branches.

According to W. A. Johnston of the Geological Survey, Ottawa, the famous Lake Louise, so well known to tourists of Western Canada, will eventually disappear. Deposits are gradually filling up the lake, but the process of deposition is so slow that it will take a thousand years or more to fill the lake to the top.

Addressing the association of official seed analysts, President George H. Clark, Dominion seed commission, said:

"Looking into the future, there can be no doubt that the services of seedmen will be needed and, in fact, will become indispensable. Our experience in Canada has been that when a system is provided by which farmers may easily be able to identify seed of the quality they desire, they will pay a fair price for it." He added that the seedmen should be provided with a practical system of seed grading should be adopted throughout North America.

NEWS IN BRIEF

NEW YORK—Seventeen people died here since Christmas Eve of Alcohol Poisoning and more than 100 others are ill in Bellevue Hospital alone.

Last Saturday the British battleship the *Vengeance* on its way to the yards to be dismantled ran wild astray in a raging storm and only a small crew on board who are unable to gain control.

British and French naval boats are attempting to reach her.

LONDON—There is a well founded report that Lloyd George has selected Winston Churchill as his successor as Prime Minister when the proper time arrives.

NEW YORK—The Canadian Dollar is rapidly approaching Par in the New York Market. Last Wednesday the Discount was only 4 1/4 per cent.

DANVILLE, KENTUCKY—Mrs. Sallie Helm died here last Wednesday at the age of 103. She had cut her third set of teeth.

BELEVUE—Last Wednesday, Bellevue had a \$80,000 fire eight buildings were burnt down.

LOS ANGELES—Proof has been obtained that Herbert Wilson charged with being chief of a bandit gang here was former pastor of the City Mission in London, Ontario.

PANAMA—An earthquake shock lasting about one minute occurred here last Monday, it apparently did no damage but the people were much frightened.

HALIFAX—More than 100 men have been let out by the Halifax Shipyard Limited at the beginning of the New Year.

DUBLIN—De Valera will propose an Amendment to the Anglo-Irish Peace Treaty on Friday 6th January.

NEWS IN BRIEF

TORONTO—Last Friday before the "Association of Scientists" here, L.H. Stockland, of Lethbridge, described his invention called the "Alleya Moth Trap" for the destruction of the "Pale Western Cutworm." This invention looks very good, and full details will appear in next week's Review.

Togo, Senegal—The Union Bank here has been destroyed by fire.

Cleveland—A broken Range on one of the wheels of an Interurban train caused from 15 to 20 people to be seriously injured, probably two fatally in an accident last Wednesday near here.

OTTAWA—Joseph Routledge, who was to have been hanged next Wednesday the 11th January, for the murder of his wife and four children by setting fire to their home in which they were burnt to death, has had his sentence commuted to life imprisonment, on the grounds of insanity.

MINNEAPOLIS—Last Wednesday the price of flour went down to \$6.35 a barrel—this is the lowest price for the last 6 years.

OTTAWA—Last Tuesday, Lord Byng struck off the first of the new Canadian 5 cent nickel coins at the Mint here.

VANCOUVER—Last Tuesday, the Car-men of the B.C. Electric Railway voted not to go on strike but to accept a reduction of ten per cent in wages as being better than being out of work at this dull time.

RIVERSIDE, CALIFORNIA—L.V. W. Brown, installed as Mayor only last Tuesday was instantly killed next day in an automobile accident.

OTTAWA—Premier King has left for Denver where his brother Dr. King is reported dying of consumption.

NEWS IN BRIEF

MIDLAND—Rev. J.J. Elliott, pastor of Knox Presbyterian Church, dropped dead in his home here last Tuesday.

JOHANNESBURG, SOUTH AFRICA—The Central Strike Committee have ordered more miners to go out on strike.

BLAIRMORE—Last Sunday at 3 p.m. a serious fire broke out, and did \$8000 worth of damage, a high gale was blowing at the time.

LONDON—An English girl Miss Blomrose will attempt to walk across the Niagara Falls on a tight-rope next June.

LONDON—The wedding of the only daughter of the King and Queen of Rumania, Princess Mary to Viscount Lascelles, also of England has been set for February 28th.

WASHINGTON—Senator Penrose of Pennsylvania died at Washington last Friday, after a brief illness.

LONDON—The picture called "Blue Boy" painted by Gainsborough, has just been sold by the Duke of Westminster to Henry E. Huntington of New York and California.

DUBLIN—Mr. A.B. Kay, a reporter for the London Times was kidnapped last Wednesday night by armed men—next morning other correspondents in the hall demanded his release and the punishment of his kidnappers.

DUBLIN—Very gloomy and serious outlook for peace in Ireland—De Valera determined to force Amendment Cause in Anglo-Irish Treaty, there are indications that peace won't settle all trouble.

ATHENS—Thirty men killed on Greek warship here by premature explosion of a torpedo last Wednesday—houses on shore collapsed killing numbers of the inhabitants.

GRASSY LAKE

Vancouver—Daniel McLean, a brother of J.J. McLean who is Reeve of the Municipality of Ennoka at Grassy Lake was fatally injured while out driving.

Mr. and Mrs. J. Campbell spent the holidays with Mrs. Campbell's mother Mrs. Hollingquist at Calgary.

We are pleased to report that Mr. Bill Larsen is now improving nicely from the very severe cold he has had, and his brother Mr. Jim Larsen of Winifred has returned home after staying several days with Billy.

Alex Hutchinson from Cathlamet, B.C. spent the holidays with his family.

Miss Viola McKenzie and Miss Grand of Lethbridge have been the holiday guests of Mrs. McEwen.

Miss Mary James entertained a number of her young friends at her birthday party and all report a good time.

Creston, B.C. News

It is reported that the G.N.R. will relay its track from Post Hill over the old roadbed this coming spring.

Several persons from Saskatchewan at night seeing in the valley this week with the view of locating.

Several inches of snow fell here last few days making sliding good at present.

The ladies of Christ Church are building a dwelling for their pastor.

The stores all closed last Monday taking a holiday and resuming up to begin the New Year.

We wish our friends both far and near a long happy life and a Prosperous New Year.

The holiday closed with a Masquerade Dance at the theatre last Monday night all reported a good time.

The two vacancies left in the school by the retiring of two of the teachers has been filled and school started Tuesday after two week vacation.

Sam Hatfield, former proprietor of the Creston Pool Hall but now of Saginaw, Michigan is visiting old acquaintances and settling up his business affairs. He is in the Pool Hall and barber business in Saginaw and reports business good in that locality.

Some of the Saw Mills are starting up after being shut down all fall, men are plenty as most of the crews reside here.

What They Are Paid For

One On The Lawyers

John Hays Hammond, the millionaire mining engineer, was once represented in a civil suit by an attorney who made a brilliant success of mixing everything up and losing the case. "There are," said Mr. Hammond disgustedly, some people who think we pay lawyers for what they know. A tragic mistake. We pay them for a highly developed genius for saying commonplace things in unintelligible English—if it is English.

"For instance, when I give you an orange, I say simply 'I give you an orange.' But if you asked the lawyer to make a record of it, he would look wise, figure how much he could charge you and collect, retire to a richly upholstered office and, after the expiration of days or weeks, reappear with a document reading like this:

"I hereby give and convey to you, all and singular, my estate and interests, right title, claim, and advantages of and in, said orange, together with all its rind, juice, pulp, and pipe and all rights and advantages therein, with full power to bite, cut, and otherwise eat the same, or give same away with or without the rind, skin, juice, pulp, or pipe anything hereinafter or hereinafter or in any deed or deed, instrument, or in or instrument of whatever nature or kind soever to the contrary or in any wise notwithstanding."

—Sydney Review

Bow Island News

Mr. and Mrs. Swannum entertained to dinner on New Year's day Mr. and Mrs. Harold Nord and sons Hubert and Irwin also Miss Belverud and Mr. Pearson.

Mrs. Hoaglin and Mrs. R.S. Beattie held a birthday party in honor of Mr. R.S. Beattie and Master Bob Hoaglin last Thursday the 29th. December at the home of Mrs. Hoaglin.

Cad playing took up the first part of the evening, after which the hostesses served a dainty lunch, followed by dancing and everyone danced to their heart's content, all report a luxurious time.

WINNIPIED

From our own Correspondent

The Misses Doris Mabel and Isabel Burch and Wm. McLean, Robt. Godfrey and Tommy Dunn attended the dance in Whitts on Wednesday night Dec. 28th. They report a good attendance and a splendid time.

At the Red Cross society meeting in the rest room on Saturday 31st, December was decided to waive their leave on the Union Bank building in favor of the Great War Veterans Association who intend to sit same up for club room.

The many friends of Mrs. Harry Grant will be pleased to know that she has so far recovered from her recent illness in Medicine Hat Hospital as to be allowed to come home the first of week. Her sister Margaret is attending her during convalescence.

Mr. Clarence Purcell of Camanago came down from that busy little town to attend the U.F.A. dance given in the Oddfellows' Hall on 30th December and he returned on Friday.

Mr. Moore of the Massey Harris Co. and Mr. Hughes of the International Harvester were business visitors in Winifred the past week.

Miss Doris Burch is spending the New Year with friends in Lethbridge.

Mr. Jas. Larsen spent a few days last week in Grassy Lake, whither he was called owing to the serious illness of his brother "Billy" who is pleased to say this Billy is in his familiarly called is now out of danger. He was suffering from a very severe attack of acute indigestion.

Mr. and Mrs. Ed. Gosselin spent Xmas with Mr. and Mrs. Reginald who lives two and a half miles north of town.

Mr. Hal. Wason and Mike Clancy of Granby were visitors in Winifred during the past week.

Miss Isabel Burch who has been spending her Christmas holidays with her parents has returned to Medicine Hat to resume her studies.

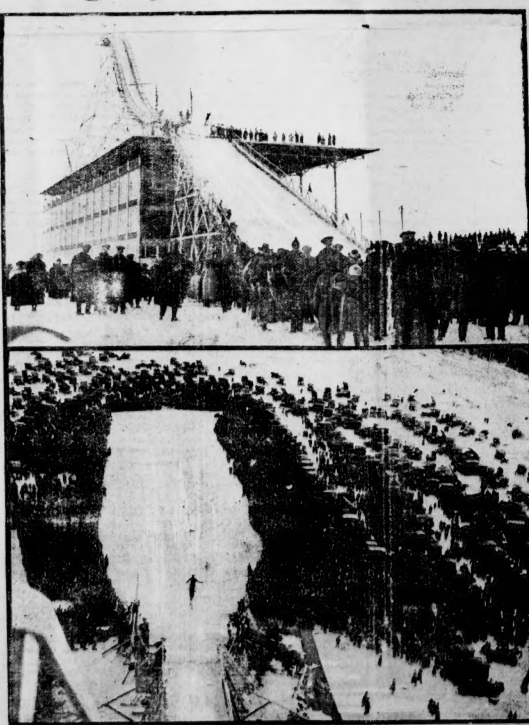

Gen. Oliver our former townsmen of Bow Island spent Xmas the guest of Mr. M.H. Smith.

Mrs. P.C. Bushing who has been very ill the past two weeks is, her many friends will be pleased to hear, slowly improving.

The Dance given in the Oddfellows' Hall on Friday night the 30th, December was by far the best social event of the season. There were over seventy five couples in attendance and to the strains of the dandy Grassy Lake orchestra, tripped the light fantastic till the wee small hours. A sumptuous supper was served and great credit is given the U.F.A. management, under whose auspices the dance was held for the manner in which they conducted the affair.

The Canadian Red Cross Local here given over their Loan of the Union Bank building to the Great War Veterans Association of Winifred and district, who are busy this week filling the building up for a Club Room, the work is in charge of the secretary Mr. Tom Godfrey. The room will be formally opened by a Social evening and Whist-drive, which will continue to be a feature of the Club's program of entertainments for the long winter evenings.

Calgary Winter Carnival

Calgary Carnival last winter. First picture shows the Toboggan Slide, second picture Ski Jumping.

Calgary Carnival will be held early in January, and the programme will include curling and skiing, hockey, skating and all other winter sports. The people of the city are giving enthusiastic support to the organizers of the Carnival. Handmade costumes will be offered. Close on forty stunts will be provided for the boys. During all winters will attend the Carnival. Spend skaters will turn up from all parts of the West.

Calgary winter carnival promises to be as interesting an event as the Calgary Stampede in the autumn.

Dairy Farming In Western Canada Is Making Rapid Progress

It has been said that an agricultural country can never reach its maximum state of development until its farmers engage extensively in dairying. This principle is now universally recognized, and the countries following the farming method are making rapid progress in dairying, the highest per capita output of milk, butter and cheese.

Western Canada has proved many times over that she can produce the best hard wheat in the world, and now she is convincing her neighbors that she can send them butter of just as fine a quality as her grain. Her farmers are gradually being persuaded that the most economical way to market their fiddlers and other crops is in the form of livestock and dairy produce, and practical demonstration is proving this. During the last ten years a phenomenal growth in the number of dairy cows and a wonderful improvement in the quality of dairy products has been witnessed in the Canadian West. At the present rate of progress, the permanent agriculture of these Western Provinces will, in a few years more, be devoted largely to intelligent dairy farming, with its products commanding the attention of the world.

"No. 1 Canadian Hard Wheat" does today. Before this can be accomplished, however, it is recognized that Western Canada must produce butter and cheese of a quality that will enable her to compete in the world's market with such countries as Denmark, where the science of marketing dairy produce has been reduced to a science. To do this successfully, the basic product—cream—must not only be of a high quality, but the dairies for export must be equipped with form grade and adapted to the palates of the people in the countries where it is sent. This is the problem that is occupying the attention of dairy experts in all three provinces. What success has attended their efforts may be judged from the fact that the market is found for all surplus produce, not only in the provinces of Eastern Canada but also in the United States and Europe.

It was not until 1915 that even Manitoba, although the oldest of the Prairie Provinces, commenced to produce enough butter to do any export. In 1919, however, that province shipped 145 carloads of butter, the first few months of 1920, 17 carloads of creamery butter were shipped to the United States. In 1920, 17 carloads of creamery butter were shipped to the United States. In 1920, 17 carloads of creamery butter were shipped to the United States.

In 1910, Alberta produced 2,315,000 pounds of butter, Saskatchewan, 1,648,696 pounds and Manitoba, 2,050,000 pounds—a total of just over six million pounds. In 1920, ten years later, the production of these three provinces had increased between eight and nine hundred per cent, to 52,375,000 pounds. The total value of dairy products was more than \$7,400,000.

In spite of such progress, however, the dairy industry is only in its infancy in the Prairie Provinces, and there is much to be accomplished before these provinces can hope to reach their height of production. What has been done is but a small part of what may still be accomplished. Western Canada's most pressing need is more farmers and more land. These offers a great opportunity for the dairyman who has cheap land, growing heavy crops of grasses and feeders, a suitable climate and excellent marketing facilities, ensuring cheap production and a good price for the finished product. With these advantages and a more closely settled population there is no reason why Western Canada should not take her place among the dairy countries of the world.—By P. J. Cowdery, Calgary, Alberta.

Preparations

Minister—"Your baby was very good at the christening. I don't ever remember of a child behaving so well."

Mother—"I've been practicing on him for a week with the watering can."

"Too many men who boast of being self-made seem to have been interrupted before the job was finished."

Baritone form of ballroom dancing, was the quadrille, started about 1815.

Trappers Making Money

Expect Good Fur Trapping Season in North Country

Trapping—the big business of the north country for the next few months—is in full swing and many trappers are well established on their trap lines again. Muskrat trapping has been going along briskly and it is expected that 100,000 pelts will be marketed in the West. Reports state that the catch is good everywhere. Traders and buyers have been paying over a dollar for muskrat skins, while one buyer figures that a muskrat is worth more than a bushel of wheat and worth about as much as four bushels of oats.

Recently a number of fur buyers, the lot of \$80,000 in cash between them, let the fur for the north to buy furs along the Hudson Bay railway. The train stops at each trading post for only a few minutes and in this brief period the fur buyers must rush upon the trade or trapper if any and get the furs before they are gone. This manner of trading contains the element of chance as time prohibits close examination of the furs and the buyers can only hastily scan them and make their offer. This method of buying has been in vogue for many years and is not likely to change. It is a way of making sure that money returns here with as high as \$40,000 worth of pelts.

Famous Convict Ship Will Visit Canadian Port

Ocean Mail Transported Men, Women and Children to Australia

The only survivor of the one thousand "felon fleet," which between the years 1873-1888 transported over 167,000 men, women and children convicts from Great Britain to Australia, namely, the Success, now on a tour of the world, will touch at Montreal, making a stop of three weeks at the opening of the next navigation season, according to a letter received from the captain, H. B. Smith. The Success was built in 1870 and was the commodore of the felon fleet, otherwise known as "The Ocean Mail." She is in no degree changed from her original state and aboard are shown the sties dungeons, the whipping posts, the knacker's room, punishment bath, lead-tipped cat-o'-nails, coffin bath and other tortures of the age, which has been inspected by over 15,000,000 people.

A Universal Alphabet

Would Be Of Great Benefit To All Nationalities

It has been suggested that there be a universal international conference on the adoption of a universal phonetic alphabet. It is thought that the Roman alphabet should serve as the basis, but the slight modifications should be made in the form of the letters, which would not interfere with their legibility and which they can learn in their present shapes. In order that there be indicated the precise sounds for which they stand. Such an alphabet, it is maintained, would enable anyone to pronounce correctly at a glance the words of a foreign language, because the spelling, apart from a few special sounds, would be the same as in his own language. There is said to be no language so hindered by its spelling as the English.

Early Prisons

In ancient times prisons were private affairs used to remove rivals or enemies. The first application of the prison system in Great Britain as a punishment for crime came as the establishment of workhouses in London in 1550. Prisons started as reform institutions in 1704, when Pope Clement XI. organized the criminal ward of the Hospital of St. Michael in Rome, as a means to rid the city of criminals rather than punish him.

A Close Second

"I heard today that your son was an undertaker. I thought you told me that he was a physician."

"Not at all."

"I don't like to contradict, but I'm positive you did say so."

"You misunderstood me, I'm sure. I said he followed the medical profession."

Ghost Language

A man pretended to have seen a ghost, and was asked what it said to him. "I could not understand what it said," replied the man. "For it evidently spoke one of the dead languages, and I did not learn them at school."

The one great drawback about loafing is the unsatisfactory compensation.

New Machine Sells Tickets

Also Makes Change and Saves Time and Labor

A machine for the rapid issue of railway tickets was being demonstrated at Manchester, Eng. The idea is quite simple. Outside the "battery" are slots in the walls, and below each of these a motor-driven receptacle. The traveller puts his coin in the penny, twopenny or threepenny slot and the ticket shoots out into the receptacle. If he puts a shilling into the twopenny slot three tickets emerge. If he puts a shilling into the threepenny slot he will get his ticket and a penny change. He need not have two pennies for the twopenny ticket. Four halfpennies will do, and though it is hardly fair to worry the brains of the machine, it accepts farthings. But it is of no use to feed it with half pence or foreign coins. These are returned.

All the work is done by the operator in the box, who stands at the levers and shoots out the tickets at a great rate as the coins tumble into a receptacle below the levers. Those who watched the machine at work, and among them were railway men, said that undoubtedly the invention would be a great success, especially during the rush hours.

Saskatchewan Fisheries

Fresh Water Product to Value of \$300,000 Netted Annually in Province

The importance of the fresh water fisheries in Saskatchewan is indicated by the fact that approximately \$300,000 worth of fish are being caught in the lakes of this province and marketed annually, according to a report of the Department of Labor and Industries just published.

A considerable amount of money has been spent on the development of the fish business, the total investment in boats, gear, smoke houses, nets and other implements being \$64,456.

The most popular fresh water fish on the market in the province is white fish. The total catch of this class of fish during the last fiscal year was 2,420,000 pounds, valued at \$112,369. This represents about two-thirds of the total fish catch of the province.

The second fish for marketing purposes is the gold eye. Just one ton of this fish was caught and marketed during the year, its valuation being \$245.

Best Sugar in Canada

There are now three sugar factories in Canada which manufacture from Canadian sugar beets. They are situated in Western Ontario. Their annual production is about 35,000,000 pounds. About 19,000 acres are cultivated to beets.

Educating the Indian

Twelve Thousand Indian Children Attending School in Canada

There were 12,058 Indian children attending Indian schools throughout the Dominion during the past year, of which number somewhat the larger portion were girls. According to the annual report of the Department of Indian Affairs there were 395 Indian schools in operation, 253 being day, 60 boarding and 15 industrial. This shows a net increase of five schools over the previous year. The total enrolment in the day schools was 7,776; in the boarding schools 3,167; and in the industrial schools 1,627. The average attendance in the three classes of schools was 5,722, an increase of 1,091 over the previous year.

The course of study is prescribed for the provincial, public and separate schools and is strictly adapted to them.

Land for farming and gardening purposes as provided at practically all the residential schools. The pupils are thus enabled to get a general knowledge of agriculture. The grant of assistance to graduates is being continued. Upon leaving school an Indian girl may be given a sewing machine or household furniture, a boy may receive a grant of cattle, horses, implements, harness or building sum.

During the year under review 24 girls and 11 boy pupils were admitted to the extent of \$2,923.84. The outlay on Indian education from parliamentary appropriation during the year amounted to \$1,112,406.93, of which \$18,000 was for the province of British Columbia and \$298,000 in Ontario.

Dominion Will Supply Five Million Trees

Forestry Farm Plant Distribution for Planting in 1923

Five million trees are to be distributed among the farmers of the three prairie provinces from the Dominion Forestry Farm for planting in the spring of 1923, according to an announcement published by Norman M. Ross, superintendent of the farm.

To secure these trees, Mr. Ross sends out 10,000 applications sent in to him at Indian Head before March 3, 1923. The applications are required to be made a year ahead, in order that the department may be satisfied that a year's preparation of the soil is made before the trees are put into the ground on the farms.

Guerney Cattle Association

The first Guerney Cattle Association in Canada has been formed at Patricia, Alta., by a number of farmers interested in dairying. Arrangements have already been made to have two carloads of Guerney cattle shipped to members of the association.

Hope deferred gives one cold feet.

Canada's Wheat Wizard Helps Western Farmers Through His Experiments

Emigration and Empire

Folly of Allowing British Citizens to Go to Foreign Countries

"The statement of the Empire are at least aware of the folly of allowing British citizens to go to foreign countries when the empty lands of Australia, New Zealand and Canada are crying aloud for population," the Auckland News says. "The further development of such a policy the nature of the Empire very largely depends. The United Kingdom has capital and surplus population, that Dominions offer land and opportunity. The problem of redistributing population and conserving British capital for the development of the young countries overseas will not prove insuperable if it is approached in the Empire spirit, and its realization will contribute not only to the safety but the prosperity of the British nations."

Russians Coming to Canadian West

Former Powerful Families Contemplate Farming in Prairie Provinces

Several wealthy Russian families are negotiating for tracts of fertile land in the southern districts of Alberta, and one Russian, A. Koskalevsky, has already arrived and secured a half section. In the days of the Czar, this Russian was employed in the diplomatic service, but was forced to flee with a number of his companions to Japan. He is the advance guard of five other former powerful Russian families who contemplate coming to the prairie to farm.

Alberta Cattle Are Winners

Every annual sent to the Chicago Livestock Show from the province of Alberta won a prize. Exhibits included Shorthorn and Hereford cattle and Percheron and Yorkshire horses. Among the prizes awarded was the Canadian Horse Breeders' Association trophy for mare, won by Hamilton Brothers, of Hamilton.

Big Timber Deal

A timber tract of 10,000 acres, D.C. reported sold for \$600,000 by Alex. McLaren, of Buckingham, Quebec, to Westminster Mills. The property has been sold by McLaren family for 32 years. McLaren still has extensive holdings on Vancouver Island.

People do wrong in trying to convince when they know very well that they did.

Give your local merchants a chance. Buy at home.

QUEBEC WINTER SPORTS

Swine For Peace River

Pure Bred Saskatchewan Stock Bred to Surrounding Communities

Swine bred on the Saskatchewan Institutional farms are being sent by rail into the Peace River country as a result of the policy of breeding pure stock on these farms inaugurated a couple of years ago.

Hon. A. P. McNab, minister of public works, states that the bulk of the pure bred sows raised on the various institutional farms have already been disposed of and 23 pure bred Yorkshire sows have been sold from the Prince Albert farm, and the mental asylum farm at North Battleford, to the sheep and swine division of the federal livestock branch for resale to farmers in the Peace River country in Alberta. These sows were all young stock, and the satisfactory price of \$20 a head.

"The increase of pure bred stock at the Regina, Battleford and Prince Albert farms," said Mr. McNab, "has been a boon to the surrounding communities, and the fact that the Federal Government, in selecting the best type of bacon hogs for the Peace River district, should have made such a heavy purchase in Saskatchewan has been a source of much satisfaction to the Department of Public Works."

Ship Chilled Meat Via Panama

According to the Panama Canal record 8,500 tons of wheat from the Canadian Pacific coast passed through the canal between January 1st and August 31st en route to European ports. A consignment of 160 tons of mutton from Vancouver is said to have been the first shipment of chilled meat from Canada to Europe by way of the canal.

The oldest building in Rio de Janeiro is the Church of St. Sebastian, begun two years after the city was founded in 1465.

You May Have Kidney Trouble And Not Know It

If your back aches and you suffer from dragging pains, it is an evidence your kidneys may not be acting right. What you need is a course with Dr. Hamilton's Pills. They contain both Mandrake and licorice and act very beneficially upon the liver and kidneys. "I was bothered with a great deal with Dr. Hamilton's Pills," my trouble manifesting by pain in the back and by constant headaches. I quickly recovered after using a few boxes of Dr. Hamilton's Pills. They brought me health, strength and vigor."—Mrs. E. J. Brown, 216, or The Cathartose Co., Montreal.

Oh, Money! Money!

—BY—
ELEANOR H. FORTER

Printed by Special Arrangement
with The Allen
Toronto, Ont.

(Continued)

But though Miss Maggie did not participate in the gay doings, she was not idle. She was on all sides, except from Mr. Smith—and on all sides she heard of the doings. She was the center of the social life of Mr. Smith to Miss Margaret. She concluded that this was the only way why Mr. Smith himself was so silent. Miss Maggie was shocked and distressed. She was also very much puzzled. She had supposed that Mr. Smith understood that Mr. Smith and young Gray cared for each other, and she had thought that Mr. Smith ever approved of the affair between them. So, to push himself on in the line of this about fashion, and to try to get everybody out, as it was vulgarly termed—the never would have believed it of Mr. Smith in the world. And she was disappointed, too. She thought Mr. Smith very much. She had not considered him to be a man of good sense and good judgment. And had he not himself exercised over it, and even Harriet had exclaimed over the "shameful duration" Miss Margaret was carrying on with this man old enough to be her father. No, there was no mistake here. Miss Margaret was not alone. Besides, did she not see with her own eyes that Mr. Smith was gone every day and evening, and that when he was at home at meal-time, he was absent and preoccupied, and not like himself at all?

And it was such a pity—she had thought so much of Mr. Smith! It really made her feel quite ill. And Miss Margaret looked on at the last evening of that holiday week when, at nine o'clock, Mr. Smith came to her sitting idly behind her before the store in the living-room.

"Why, Miss Maggie, what's the matter with you?" cried the man, in a very evident concern. "You don't look like yourself to-night!"

Miss Maggie pulled herself up hastily. "Nonsense! I'm perfectly well. I'm just—tired, I guess. You're home early, Mr. Smith," in spite of herself Miss Maggie's face was a little time of something not quite pleasant.

Mr. Smith, however, did not appear to notice it. "Yes, I'm home early for once, thank heaven! I'm half-grown, as he dropped himself into a chair."

"You, haven't it?" Again the time of something not quite pleasant in Miss Maggie's voice.

"Yes, but it's been worth it," Mr. Smith turned deliberately and looked at Miss Maggie. "I'm sorry."

"You've been questioning in his eyes. Ob-taining, apparently, however, no satisfactory answer from Miss Margaret's placid countenance, he turned away with a heavy sigh."

"Well, anyway, I've accomplished what I set out to do."

"You've—very—already accomplished it?" faltered Miss Maggie. "She has gained at him now with startled, half-frightened eyes."

"Why, Miss Maggie, what's the matter? What makes you look so queer?"

"Queer? Nonsense! Why, nothing—nothing at all," laughed Miss Maggie nervously, but very bravely. "I may have been a little—surprised, for a moment, but I'm very glad—very."

"Glad?"

"Yes, yes, for—for you. Isn't one always glad when—when a love affair is—"

"Is all settled?"

"Oh, then you suspect it?" Mr. Smith smiled pleasantly, but without changing his voice. "I don't know, of course, only—well, I had hoped it."

"It's too confidential," said Miss Maggie. "Oh, but you couldn't expect to find the thing that Mr. Smith" retorted.

"He said, 'I don't know, of course, only—well, I had hoped it.'"

"The mischief you did!" frowned Mr. Smith. "I don't believe the parties themselves—quite understood it."

"Well, I suppose I couldn't expect to find the thing that Mr. Smith" retorted.

"He said, 'I don't know, of course, only—well, I had hoped it.'"

"The mischief you did!" frowned Mr. Smith. "I don't believe the parties themselves—quite understood it."

DID PAIN DISTURB YOUR SLEEP?

THE pain and torture of rheumatism can be quickly relieved by the use of Sloan's Liniment. It brings warmth, ease and relief, and lets you sleep soundly. Always have a bottle handy and apply it to the afflicted part.

It penetrates rapidly into the system and takes the pain out of the system. It is a sure remedy for rheumatism, neuralgia, sciatica, lumbago, sprains, stiff joints, and lame backs. It is a sure remedy for all these ailments.

40c. per bottle. 70c. 1.00. 1.50. 2.00. 2.50. 3.00. 3.50. 4.00. 4.50. 5.00. 5.50. 6.00. 6.50. 7.00. 7.50. 8.00. 8.50. 9.00. 9.50. 10.00.

Sloan's Liniment (Pain Expeller)

"I don't know, really, what I am going to do with her," said Mr. Smith. "I wonder if perhaps she could help me."

"Help you?"—about Miss Flora? "Yes, Can you think of any way to make her contented?"

"Don't tell me she isn't happy!" There in a curious note of almost despair in Mr. Smith's voice. "I don't see of new house, and everything else to go with it."

Miss Maggie laughed. Then she sighed. (To be continued)

New Jersey Bans Poppy

Horticultural Board Says Blooms Are A Nuisance

New Jersey's two-legged poppies will not see another spring. The federal horticultural board has ordered the removal of the poppies from the grounds of the state.

The poppies were found to be a nuisance on the grounds that they are a nuisance. The poppies were found to be a nuisance on the grounds that they are a nuisance.

"YOUR TEETH"

BY HENRY FROSTEN MOORE, D.D.S., M.D., Editor of "Oral Hygiene"

It is true that those who have the greatest dread of having their teeth treated upon are the ones who are the greatest sufferers from toothache.

The primitive laws of man were all based upon "Taboo," or as we call it, "fear."

The things that people did that at wars, resulted in pain or trouble were forbidden or tabooed. At first, every violation of the taboo brought its own punishment.

For instance, if the tribe lived in a cave and at one dark upon a rock protruded so that a man would bump his head if he walked there, the medicine man declared that tabooed and all who broke the taboo bumped their heads and suffered.

When laws became more complicated the natural penalty did not always work, and so penalties had to be provided to make the taboo good.

We work under this system now in most of our laws, but the teeth still carry their own penalties.

If you neglect your teeth you will surely get the penalty without a judge or a jury.

A tooth aches for two general reasons. First, if the pulp is exposed it becomes inflamed and causes intense sharp pain from the actual irritation of the nerve.

In this kind of toothache the pain is entirely from within the tooth.

When the pulp is dead there can be no pain within the tooth; the pain is all due to the infection and gas pressure in the bone surrounding the end of the tooth.

It is this kind of an inflammation that is a danger to your general health. It means that you have a point or focus where poison may enter the blood stream.

Match Factory In B.C.

The Kootenay Match Company is being incorporated at Nelson, B.C., with a capitalization of \$150,000, and a match factory will shortly be in operation.

The necessary machinery has been installed and patents applied for, and it is expected that production will commence at an early date.

After the war was over, the poppy spread fields of France and Flanders. Horticulturists even then warned against doing this.

The experts were right. It seems. The halo that was thrown about the poppy after Colonel Mollath's fine words, "In Flanders Fields," began to ring about the world was purely a sentimental affair. Now not only does the action taken in New Jersey show the practical common sense wins out again over sentiment, but it also shows that the world is not over-Indulgent Commercial.

Clear Eyes Balfour

Sees No Peace Unless Britain and United States Stand Together

Mr. Balfour, with his ripe statesmanship look to the big thing, and disregard details. He sees there can be no peace or ordered liberty throughout the world if Great Britain and the United States are not united.

Other nations can be helpful in achieving this great end, but sympathetic relations between the White House and Downing Street are essential. Who will challenge the truth of this? And, who, admitting it, will be blind to its implications?

Those who would separate those who speak the same tongue and who have been brought together by great events may justly, perhaps, be claimed to have no merits, but they may not claim that in any true sense they are friends of world peace—New York Tribune.

A Brilliant Interpreter

Frenchman at Washington Conference is Proficient in English

Camerling, the brilliant French interpreter, utterly amazes visitors to the Arms Conference at Washington, and is always the source of the greatest admiration among those who have to depend upon him to follow the proceedings when English is not spoken.

At the time the French Premier, M. Briand made his address before the conference, he had hardly taken his seat before M. Camerling was on his feet interpreting his address in English.

He did not falter and was never at a loss for a word in English to convey the exact meaning which M. Briand's words conveyed.

But this was not his only feat. He put into his voice the same tone and feeling and used virtually the same gestures as the Frenchman.

The Acorn Tank Heater and the Acorn Snow Melter are offered at January sale prices. See particulars in advertisement in this issue.

Approximately one yard of cloth can be made from one pound of sheep's wool.

USE PURELY EYES

Sun Wind Bust Cinders

Microscopic Lens For Physicians—Optician used for Faint Eyes, Night Glasses

Handy tin boxes of 10 tablets—Bottles of 24 and 100—All Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoaceticacid of Salt.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Angus Men In Parliament

Expected That Elected Representatives Will Help Livestock Industry

Mr. Harry Leader, of Portage la Prairie, Manitoba, who defeated Premier Melchior on the Progressive ticket, has been a prominent member of the Canadian Aberdeen Angus Association and a leading breeder of Aberdeen Angus cattle.

In the Damp constituency Mr. J. W. Ward, the successful Progressive candidate, is also a leading Aberdeen Angus breeder in his own territory.

Both men will go to the Federal House of Commons with a full understanding of the needs of agriculture and animal industry in the west. While it is not expected that they should in any sense be the special representatives of the Angus breed in parliament, they can with the help and assistance of other prominent breeders of the different breeds of livestock, who have been elected as Progressives, Liberals and Conservatives, do a great deal for the livestock industry in general when questions of fiscal policy or foreign markets are being discussed.

Exploiting Manitoba Oil

Two large U.S. Companies Will Begin Operations Soon

Shipment of oil boring machinery to Manitoba has commenced by two United States oil companies, which intend to commence exploitation of an area 45 miles north of Winnipeg, according to information received at Winnipeg. Experts representing the two companies have been in Winnipeg and on the ground which is to be worked for a long while.

Curtis Awarded Invention Honor

In a decision, epoch making in the history of aeronautics, the United States Circuit Court of Appeals held that Glen H. Curtis was the first person to invent and operate a flying machine, and issued an order awarding him the broad patent for hydro-aeroplanes.

The decision reversed the lower court's ruling, which awarded the patent rights to Albert S. Jannin, an inventor of St. Louis.

In order to shut out the dirt of the city, Herbert Spencer used to wear special shoes fitted with pads which effectively closed each car.

Model Village in Somaliland

Cousin of Italy's King Has Made Improvements For Millions of Italians

The Duke of the Abruzzi, cousin of the King of Italy, Polar explorer, mountain climber and distinguished naval officer, has achieved that the African colony he is taking a profound interest. He built a model village in the Benadir region, with everything for their comfort and improvement, including schools, a hospital, and a library. The Somalis, who treat him with the greatest veneration and affection, have asked that the colony be named after him. The colony is now called the Duke of the Abruzzi Village.

After raising 24,000,000 lire a year ago for the development of Somaliland he went out there to disburse it and saw that the money was used for material and supplies for railway building and the promoting of agriculture.

An Old Agriculturist

Englishman Worked in Fields Until After He Was 100

An extraordinary instance of longevity is that concerning an agriculturist, named Thomas Parr, born in Shropshire, England, in 1483. He was engaged in agricultural pursuits and worked in the fields till after his one hundred and thirtieth birthday. At 130, according to authentic records, married a second time and became the father of a family. At 175 he was introduced to the court of Charles I. by the Earl of Arundel as a remarkable prodigy, but the change of air and mode of living caused his death. A post mortem examination of his body was made, but no internal symptoms of decay could be discovered. A grandson of Thomas Parr died in Shropshire at the age of 130.

Could Not Eat

Constipation is caused by a torpid condition of the liver. Dosing with salts, castor oil, etc., to move the bowels, cannot afford more than temporary relief.

If you are to rid yourself of this ailment and the scores of annoying symptoms and distress which come in its wake, it is necessary to get the liver right by such treatment as is suggested in this letter:

BURDETT WHITE LUNCH

Unimpressed

When Rose Viviani, former premier of France, arrived in Washington last March as a special envoy from France, politicians and newspaper men wondered what success he would have in trying to persuade President Harding to look favorably upon the League of Nations.

"He'll be, perhaps, like the man I once saw trying to tell a deaf woman her house was on fire," continued Col. Franklin P. Morgan, dean of the newspaper men. "He rushed up the front steps, hammered on the door and, when the woman appeared, shouted: 'Your house is on fire!'"

"What did you say?" she retorted.

"The man jumped up and down, pointed to the roof, and shouted: 'House on fire! No time to lose!'"

"The woman, not having heard a word, smiled politely, and said: 'Is that all?'"

"Well," replied the man dejectedly, "that's all I can think of just now."

Girl Rescues

Father's Horses

Barbara Rutkay of Prosper, near Foreman, is evidently "some girl," in that she, as alleged, came to the aid of her father (Gabe), in rescuing 10 horses which were being driven to the pound. The means she used was to force up behind the driver, who was asleep, and trailing a chain behind her she stampeded the horses. On information laid by E. Lancaster of Prosper before J.P. Rabbit of Erickson, Gabe's Rutkay was charged with the offense of endeavoring to drive off the horses. In the fact that two witnesses were not able to identify the accused or the horses, and there being a doubt as to the intentions of Barbara, the court settled the matter by placing the costs of the action on Rutkay, giving him ten days to pay them, or in default ten days in jail.

NEWS IN BRIEF

see them on middle page

Burdett News

From our own Correspondent

The Burdett Women's Institute will meet at the Council Chambers on Wednesday January 11th. A full attendance is requested.

Miss Alice Pool has returned to Calgary after spending the holidays with her parents.

Mr. J.E. Hamilton left last week for Oakland, California where he intends spending the winter.

Lloyd McCallum of Coalville and Miss Rita McCallum of Lethbridge spent the holidays with their father Mr. E. McCallum.

Mr. Geo. McNamany who has been very ill with pneumonia for the past week is still in a critical condition. At the home of Mr. and Mrs. Kevin Brown, Dr. McPhail of Burdett and Dr. Gresham of Medicine Hat are in attendance.

At a general meeting of the Returned Soldiers Aid Society, terminating 1921 and re-election of officers took place, the following ladies being duly nominated and re-elected: President Mrs. A. Kirkham Vice President Mrs. (Dr.) McPhail Sec. Treas. Mrs. R. Stewart Entertainment Mrs. Leo Hamel Committee Mrs. F. Kirk Relief Committee Mrs. W. Andrews Mrs. G. Thacker

The next general meeting will be held on Friday January 20th, at 8 p.m.

Mr. and Mrs. J. Llewellyn of Magrath spent the holidays with their children in Burdett.

Mr. J. Kirk who has been spending part of the holidays with his brother Mr. Frank Kirk, preached at the United Church on Xmas night to a crowded Church. Mr. Kirk and Miss Pool sang a duet during the offertory which was a decided pleasure to listen to.

Miss Edith Sandry who has been teaching at Jackson, Alta. came home for the holidays and has decided to stay at home, she says there are no places than Burdett.

Miss Humphreys spent the week end with friends at Grassy Lake.

The Consolidated School reopened last Tuesday Jan. 3rd, with a full staff of Teachers.

Canadian Apple Exhibition

The speed at which Canadian products can be put on the market in England was strikingly demonstrated recently.

The Department of Colonization and Development of the Canadian Pacific Railway recently shipped by Dominion Express on the "Empress of Britain" a consignment of Canadian apples for exhibition at 62-65, Charing Cross, and the other offices of the company in Europe. The apples came from various Canadian provinces, and it is interesting to note that some of them actually left the producer and were on show in less than eight days. For instance, the Ontario consignment left Trenton, Ontario, at 2 a.m., November 1, by C.P.R., arrived Montreal at 8 a.m., left at 9 a.m., and arrived Quebec at 2 p.m. They were immediately placed on board the Canadian Pacific liner "Empress of Britain," which arrived Liverpool on Tuesday morning, Nov. 8. Before the last passenger was off the ship the apples were discharged, whacked in Dominion Express motors to the special train to Euston Station, London, which was reached soon after 2 p.m. the same day. Here Dominion Express vans collected them, and at 3 o'clock they were on exhibition in the windows of the Canadian Pacific at Charing Cross, with a card reading, "Canadian apples, from producer to consumer in less than eight days."

Though Canada is three thousand miles from England, our system of quick transportation is bringing us nearer to that country every day. Recently the "Empress of Britain" went to Liverpool and back to Quebec in 16 days, including the time taken in embarking and disembarking passengers.
